### **The Spanish sun keeps shining at Ostend-Bruges Airport**

**Spain remains the most popular holiday destination, welcoming close to 50% of all travelers. In addition, 7 out of 10 Spain lovers opt for the Canary Islands' eternal spring, according to TUI. More blue skies are ahead for those traveling out of Ostend-Bruges.**

TUI fly is adding a new Spanish destination for the summer of 2020, starting in the Easter break: Murcia, which will be a direct connection on Wednesdays and Saturdays. While Murcia may be the lesser known city, it possesses the same qualities as Alicante or Malaga. The brand new, modern airport of Murcia-Corvera is less than an hour away from Torrevieja, one of the most popular places for Belgians' second residences. The connection to Murcia has already proven successful out of Antwerp. The Ostend airport will premiere this new flight on Saturday April 4th 2020.

More good news follows for 2020's high season. In July and August the flights to Tenerife and Gran Canaria will be non-stop, resulting in more than an hour of travel time saved compared to the combination flight. The two most popular Canary Islands are the original strongholds for the Ostend Airport. All flights to these destinations are guaranteed to be non-stop next summer.

Ostend-Bruges Airport's destinations for the summer of 2020 will be as follows:

#### **Bulgaria**
